

JOE'S
NO FLATS™

2018
PRODUCT CATALOGUE

It's our love of cycling and outdoors that makes us free, free to ride, travel, explore, commute and compete. Our aim is to provide you the ideal conditions to achieve your goals without harming the environment.

Joe's No-Flats provides the bicycle market with:

- The world's most effective flat prevention sealants.
- Self-sealing tubes.
- Tubeless conversion kits.
- Nano technology based lubricants.
- Bio degreasers and cleaners.

Joe's No-Flats team appreciates the trust you put in us to make your bike ride free as possible by providing you with the most advanced and effective flat prevention and bicycle care products.

OWN THE TRAIL

2018

TUBELESS VALVES

We expanded our tubeless valves collection and now have different length valves from 32mm to 60mm. Valves are available in colorful anodized aluminum or golden brass. All valves are high quality and will fit most tubeless rims.

RIDEAIR

The Joe's RideAir is a refillable multi-use portable air capsule that lets cyclist inflate bicycle tires at a push of a button. Commuters can enjoy fast clean inflation by carrying it on the bicycle using the standard bottles cage. For tubeless users it eliminates the need for a compressor or going to the gas station for first tubeless installation.

NEW

TUBELESS RIM TAPE

As long as the trend to ride on wider rims continues we will be there with a wide collection of rim tapes for the rider (9m) and the workshop (60m) in a large width range.

TUBELESS READY KIT

All you need to make/ service your Tubeless Ready wheelset.

- Fits most 29", 27.5" & 26" tubeless-ready wheels and tires.
- Kits are available with 32/48 mm tubeless Presta valves and 21/25 mm rim tape.

PRODUCTS

UNIVERSAL TUBELESS KIT

The revolutionary tubeless kit that converts any mountain bike wheel into tubeless.

- One size fits all.
- Unique tear & fit rubber rim strip.
- Easily fits any rim width & size – 29", 27.5" & 26".

JOE'S ROAD RACING SEALANT

Specifically engineered to seal punctures in high air pressures road wheels.

- For use with road tubular, tubeless, tubeless ready tires and tubes.
- Instantly seals punctures of up to 3mm in the tread.
- Easy to use spout that fits into all valves.
- CO₂ compatible.
- Contains micro-sealing particles.
- Latex based.

2018 PRODUCTS

WHY RIDE TUBELESS?

- Lower weight – most tire manufacturers are offering low weight tubeless ready tires.
- Superior flat prevention – sealant is working better in tubeless than in a tube.
- Reduces rolling resistance by eliminating the rub between tire and tube.
- Enables riding at lower air pressure - enhances grip and control and removes the risk of "snake bites" (pinch flats).
- Ecological and economical – reduces tubes manufacturing and consumption.

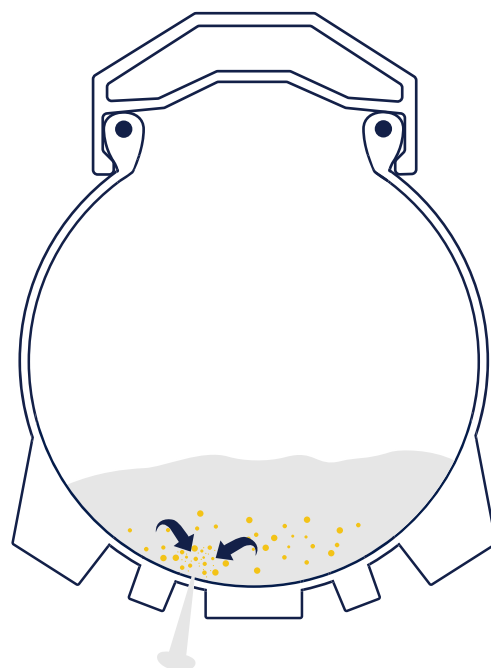

MAINTENANCE

To maintain the correct amount of sealant in your tires, add a third (1/3) of the original amount used for each tire periodically. In cold climate add sealant every 3-6 months and in hot climate every 2-4 month.

YOU CAN SET A RECURRING ALERT IN YOUR CALENDAR TO REMIND YOU TO ADD SEALANT

HOW MUCH SEALANT SHOULD I USE?

Liquid sealant runs freely inside the tire. When puncture occurs, a small portion of sealant is sucked into the hole and seals the puncture permanently. In order to insure an effective sealant protection, sealant must reach any relevant part of the tire. Using a small amount of sealant reduces weight but leaves you exposed to ineffective protection. Sealant amount in your tire depends on tire size and riding/ storage conditions. Use 60ml to 120ml of sealant in each MTB tire, 40ml to 60ml for a single road tire and 125ml for fat bike and PLUS tire. The drawing shows the difference in the tire protected area when using 60 ml and 120 ml sealant per tire.

ALWAYS APPLY SEALANT WHEN THE VALVE IS AT 8 O'CLOCK POSITION.

STRONG BY NATURE

JOE'S
NO FLATS™

JOE’S SUPER SEALANT

Ultra-fast sealing for tubeless, tubular and tubes

- Excellent sealing for holes of up to 6mm.
- Wide temperature range compatibility (-20°C - +70°C).
- Wide pressure range compatibility (15PSI - 100PSI).
- Suitable for Tubeless, Tubular and Tubes.
- CO₂ compatible.

Item #	Product	Size
180049	Joe's Super Sealant	60 ml / 2 oz
180036	Joe's Super Sealant	125 ml / 4.2 oz
180043	Joe's Super Sealant	500 ml / 16.9 oz
180067	Joe's Super Sealant	1 Liter / 33.8 oz
180104	Application Bottle	125 ml / 4.2 oz

JOE’S ECO SEALANT

The only real ecological sealant in the market

The ultimate sealant for Tubeless Ready tires

- Designed specifically for light weight Tubeless Ready Tires.
- Instantly stops punctures of up to 6mm.
- Prevents air leaks from tire's thin side walls.
- Ammonium free - no potential damage to the rim.
- Latex free – Protein free - no risk for allergic reaction.
- Won't leave sticky residue in the tire.
- Environmentally friendly.
- Wide temperature range compatibility (-20°C - +70°C).
- Wide pressure range compatibility (15PSI - 100PSI).

Item #	Product	Size
180286	Joe's Eco Sealant	60 ml / 2 oz
180287	Joe's Eco Sealant	125 ml / 4.2 oz
180290	Joe's Eco Sealant	500 ml / 16.9 oz
180302	Joe's Eco Sealant	1 Liter / 33.8 oz
180104	Application Bottle	125 ml / 4.2 oz

FLATS PREVENTION
SEALANTS

JOE’S ELITE RACERS SEALANT

Putting science at the service of professional mountain bike racers’ standards

- Seals up to 6 mm punctures in the tread, faster than any other sealant in the market.
- For use in tubeless, tubular tires and tubes.
- Contains micro sealing particles.
- Latex based.
- CO₂ compatible.
- Recommended for race day and for riders seeking ultimate performance.

Item #	Description	Size
180636	Joe's Elite Racers Sealant	125 ml / 4.2 oz
180630	Joe's Elite Racers Sealant	500 ml / 16.9 oz
180104	Application Bottle	125 ml / 4.2 oz

JOE’S ROAD RACING SEALANT

Specially designed for road bike challenge of immediate sealing in high pressure tires

- For use in road tubular, tubeless and tubes.
- Compatible with air pressures of up to 120 PSI.
- Instantly seals up to 3mm punctures in the tread.
- Easy to use spout- fits into all valves.
- CO₂ compatible.
- Contains micro sealing particles.

Item #	Description	Size
180660	Joe's Road Racing Sealant	60 ml / 2 oz
180661	Joe's Road Racing Sealant	125 ml / 4.2 oz

Easy To Apply Sealant

Bottles of 60 ml, 125 ml and 240 ml compatible with Presta and Schrader valves to apply sealant directly from the bottle.

Bottles of 500 ml and 1 Liter should be used with Joe’s Application Bottle.

SEALANTS

UNIVERSAL TUBELESS KIT

The revolutionary tubeless kit that converts any mountain bike wheel into tubeless

- The tubeless Kit is the most important upgrade available for the dedicated cyclist.
- Allows a safe conversion of standard wheels into tubeless.
- One size fits all. Rims up to 40 mm inner-width.
- Easily fits any rim size – 29”, 27.5” & 26”.
- A unique “tear & fit” rubber rim strip.
- Each Kit contains all components needed for two wheels conversion:
 - 2X 125ml sealant bottles
 - 2X “Tear & Fit” rubber Rim strips
 - 2X Presta valves
 - 1X Rim tape for two wheels (two revolutions)
 - 1X Valve core
 - 1X Valve Key
 - 1X Presta to Schrader valve adaptor
 - 1X Easy tubeless assembly wet wipe

Item #	Description	Valve type

SELF SEALING TUBES

EMPTY TUBES

- High quality tubes.
- Available in most popular sizes and valves.
- Available in bulk packages or individual tube packaging.

JOE’S ECO-NANO LUBE

Highest efficiency & Environmental Friendly

- The Eurobike 2012 award winning Eco-Nano lube is the only lube that combines Nano technology with ecological safe materials.
- Dramatically decrease the need for re-lubing between rides.
- Coats the chain with a thin layer of PTFE.
- Contains unique Nano-particles for superior friction reduction.
- Ensures extremely smooth and quiet gear shifting.
- Water based - Eco friendly.
- VOC Free.

FOR DRY CONDITIONS:

- Leaves drive-train parts dry, dust and dirt free.
- Prevents chain suction.
- Keeps chain cleaner compared to other dry condition lubes.
- No grease builds up on chain and pulleys.
- Leaves a white and clean chain.

FOR WET CONDITIONS:

- Good penetration, good adhesion to metal with superior water and mud resistance for long lasting in extreme conditions.

Item #	Product	Size
180819	Joe’s Eco-Nano Lube For Dry Conditions (Drop)	30 ml
180807	Joe’s Eco-Nano Lube For Dry Conditions (Drop)	125 ml
180820	Joe’s Eco-Nano Lube For Wet Conditions (Drop)	30 ml
180814	Joe’s Eco-Nano Lube For Wet Conditions (Drop)	125 ml

BICYCLE CHAIN LUBES

JOE’S PTFE CHAIN LUBE

High Efficiency with PTFE

- PTFE based lubricant, specifically developed and engineered for long distance bicycle rides in dry / wet conditions.
- Coats the chain with a thin layer of PTFE.
- Ensures extremely smooth and quiet gear shifting.
- Designed for use on bicycle chains, derailleurs, cables and chain wheels.

FOR DRY CONDITIONS:

- Cleans and lubricates as you ride, repels dust, dirt and moisture.
- Superior penetration, ensuring all parts of the chain are lubricated.
- Cleaner than conventional lubes and with no greasy build up.
- Leaves a white and clean chain.

FOR WET CONDITIONS:

- Good adhesion to metal with high water resistance long lasting in extreme conditions.
- Superior penetration, ensuring that all parts of the chain are lubricated.
- Extremely resistant to water, mud and dirt.

Item #	Product	Size
180401	Joe’s Chain Lube For Dry Conditions (Drop)	30 ml
180197	Joe’s Chain Lube For Dry Conditions (Drop)	125 ml
180203	Joe’s Chain Lube For Dry Conditions (Aerosol)	500 ml
180418	Joe’s Chain Lube For Wet Conditions (Drop)	30 ml
180210	Joe’s Chain Lube For Wet Conditions (Drop)	125 ml
180227	Joe’s Chain Lube For Wet Conditions (Aerosol)	500 ml

BICYCLE CHAIN LUBES

JOE’S BIO-DEGREASER

Spray & Rinse, water washable, heavy duty degreaser

- Water soluble.
- New formulation – REACH compatible with environmental regulations.
- Perfect for cleaning your bicycle drive-train: chains, derailleurs, cassettes, chain wheels and a wide range of sticky, greasy surfaces such as engine parts, tools, floor stains, machine parts, etc.
- Will not harm metal or cloth and most types of rubber and plastic.
- Easy to use – spray and wash with water.

Item #	Description	Size
180234	Joe's Bio Degreaser (Aerosol)	500 ml
180235	Joe's Bio Degreaser (Spray Bottle)	500 ml
180237	Joe's Bio Degreaser (Spray Gallon)	5 Liters

JOE’S DISK BRAKE CLEANER

Highly efficient, fast evaporating brake cleaner

- Leaves disc brake rotors and pads perfectly clean and dry with no brake dust, oil, dirt or grime.
- Improves braking performance and re-hydrates lifeless brake pads.
- Perfect for cleaning bike suspensions and rims from old rim tape.
- Cleans a wide range of sticky greasy surfaces such as engine parts, tools, machine parts, etc.
- Will not harm metal, cloth and most types of rubber and plastic.

Item #	Description	Size
180258	Joe's Disk Brake Cleaner (Aerosol)	500 ml

JOE’S FRAME & TIRE SHINE

Shiny protective coating for tires and frames of all bicycles

- Leaves a shiny coating on frame and tire.
- Extends tire life.
- Perfect for renewing used bikes for trade-in deals.
- Makes future cleaning of bike easier.
- Preserves tires and rubber parts.
- Prevents cracking and aging, making old tires look new.
- Safe to use with plastic, rubber, metal and all painted surfaces.
- Aerosol: High pressure and easy to use.
- Spray Bottle: Environmentally friendly, VOC Free.

Item #	Description	Size
180265	Joe's Frame & Tire Shine (Aerosol)	500 ml
180266	Joe's Eco Frame & Tire Shine (Spray Bottle)	500 ml

BICYCLE
CLEANERS

MUD KILLER

Creates Super-Hydrophobic coating, repels mud and water

- A game changer in wet conditions riding.
- Hi-Tech mud repellent.
- Not the standard silicon based mud repellent.
- This unique formula creates a super hydrophobic coating which prevents mud and water from accumulating on the bicycle.
- Coating can be removed easily with a dry rag.
- Safe to use on plastic, rubber, metal and all painted surfaces.

Item #	Description	Size
180229	Mud Killer (Spray Bottle)	500 ml

JOE’S ECO BIKE SOAP

Bike and gear friendly soap

- Safe to use on any bike parts.
- Great for cleaning riding gear: helmets, gloves, shoes and protective gear.
- Efficiently removes grime and dirt, from chain, cassette and frames leaving a shiny coating on your bike.
- It is so natural you can wash your hand with it.
- Simply spray and wash.

Item #	Description	Size
180233	Joe's Eco Bike Soap (Spray Bottle)	1 Liter
180232	Joe's Eco Bike Soap (Spray Gallon)	5 Liters

JOE’S BRUSH KIT

Useful set of brushes for cleaning your bike

- A set of 3 different brushes for cleaning all bike parts.
- Great for your home workshop.

COMMUTE & E-BIKE

JOE'S RIDEAIR

The Joe's RideAir is a refillable multi-use portable air capsule that lets cyclist inflate bicycle tires at a push of a button. Commuters can enjoy fast clean inflation by carrying it on the bicycle using the standard bottles cage. For tubeless users it eliminates the need for a compressor or going to the gas station for first tubeless installation.

- Fast inflation.
- Good for first time tubeless installation.
- Perfect for E-bike.
- Excellent gift for someone who has it all.
- A dependable device for anyone who uses bicycle as main transportation vehicle.
- Suitable for wide range of wheels up to 29".
- For MTB, road, urban, children and electric bicycles. Also good for baby strollers and wheelchairs.
- A special adapter for French/presta valves and auto/Schrader valves.
- Refills with a simple floor pump, air compressor or gas station air point.
- Designed to fit in most bottle cages in the market.
- An integral metal cord and combination lock version to secure the Joe's RideAir to the bicycle.
